

## POOL PROMPT – Tintometer Information 08/2009

### SensoDirect 150

**NEW**

#### The Multi-Talent

For the determination of :

- pH/Redox  
°C/°F
- Conductivity/TDS/  
°C/°F
- dissolved oxygen (O<sub>2</sub>)  
O<sub>2</sub> concentration in mg/l  
°C/°F

Log crucial electro-chemical and physical auxiliary hygiene parameters for swimming pools, bathing pools and open air fun pools with a single, hand-held measurement unit – the new SensoDirect 150. Results can be measured with up to three electrodes – and all at real value for money.

Contact us for further information, quoting **SENSODIRECT 150**

### TurbiCheck – precise turbidity measurement made easy

Turbidity measurement in swimming pools and bathing pools is often given too little consideration. This is a serious omission, because this parameter is extremely useful in determining the effectiveness of flocculation and filtering as part of water treatment. Even the smallest undissolved particles in the water (so-called colloids) will produce a dull impression; the water does not look clear.

Apart from the visual aspect these colloids also affect water quality. The German standard DIN 19643 defines a maximum figure of 0.2 FNU for clean water and 0.5 FNU for pool water.

(FNU = formazine nephelometric units).

The TurbiCheck will measure from 0.01 FNU up to 1100 FNU. The unit is extremely user-friendly and the water sample is analysed in a matter of seconds, without adding reagents.

Contact us for further information, quoting **TURBICHECK**

## From PCCHECKIT to CheckitDirect

### Evolution in photometry

Easy to use, great accuracy, reproducible measurements, best prices – in short, high performance – all this is what you have come to expect from the PCcheckit range. Now, following further development, the new CheckitDirect units can significantly top even this performance.

And last but not least – despite the new features the CheckitDirect range of photometers does not cost a penny more.

Contact us for further information, quoting **CHECKITDIRECT**

### Highlights

- ✎ Background lighting to the LCD display at the touch of a button
- ✎ Internal ring buffer memory for 16 data sets
- ✎ Real-time clock and date
- ✎ Factory and user settings
- ✎ Battery level indicator
- ✎ Chlorine measurement takes colour reaction time into account

## Exhibitions and events

We shall be presenting a preview at the Pool & Spa Scene 2009 / 2010.

Why not make a date today ?

We look forward to seeing you !

**Your Lovibond® Team**

PISCINA 2009 - Spain  
20/10/2009 to 23/10/2009

AQUANALE 2009 - Germany  
28/10/2009 to 31/10/2009

Int'l Pool | Spa | Patio Expo 2009 - USA  
16/11/2009 to 18/11/2009

SPATEX - England  
06/02/2010 to 08/02/2010

BSW-INFOTAGE - Germany  
26/02/2010 to 27/02/2010

MIDDLE EAST POOL & SPA EXHIBITION - VAE  
26/09/2010 to 28/09/2010

INTERBAD - Germany  
13/10/2010 to 16/10/2010

PISCINE 2010 - France  
16/11/2010 to 19/11/2010
